Professional Summary

Results-driven IT professional specializing in Workflow Automation, and Data Dashboard Creation. Proven ability to enhance business efficiency by building complex automations and insightful dashboards.

Professional Experience

ItGenius Australia Sydney, Australia

Mid-Level Workflow Engineer *Fulltime* July 2024 – Present

- Engineered a feature in Intercom to let sales representatives generate, finalize, and send Stripe quotes without leaving the support inbox with a branded hosted quote page and Accept-&-Pay checkout.
- Trained an AI support assistant to auto-resolve premium customer questions.
- Automated approved-leave sync from Asana to Google Calendar, eliminating manual out-of-office entry across the team.
- Reduced company-wide automation token costs by 60% by re-architecting scenarios and removing redundant workflows.
- Automated internal operations using Webhooks and an automation tool such as Zapier to sync data between Copper CRM, Asana, and WHMCS.
- Deployed, migrated, and supported customer WordPress sites on Cloudways hosting.
- Transformed raw database into real-time visualizations by building dynamic Looker Studio and PowerBI dashboards for internal and external reports via custom SQL queries and third-party API integrations
- Collaborated with a development team to build a custom script to sync user roles between WHMCS and WordPress.

University of The Immaculate Conception Davao City, Philippines

Teaching Staff *Part-time* February 2025 –April 2025

- Taught Artificial Intelligence and Data Analytics to Medical Technology students through hands-on, real-world exercises.
- Delivered practical training in Gemini, Power BI, Excel, Google Sheets, and Kaggle datasets.

Lap-IT Solutions Davao City, Philippines

Front-End Web Developer *Intern* February 2024 – May 2024

- Collaborated on the UI/UX design and developed the front-end interface for the company store that can make owner log in and update site content instantly
- Managed PC assembly, reformatting, and Operating System installation for client hardware deliverables

Registry of Deeds *School Project* Davao City, Philippines

System Quality Assurance October 2022 – November 2023

- Conducted comprehensive testing of system functions, identifying bugs and logic errors to ensure data accuracy.
- Verified that all core features were fully operational before final deployment, ensuring a successful and error-free demonstration.
